Dear Tyler Hodgkinson:

Re: Forest Practices Board Complaint Investigation Report – *Timber Harvesting and Potential Impacts to the Duhamel Creek Alluvial Fan* (FPB/IRC/193)

The Forest Practices Board has reviewed Kalesnikoff Lumber Co. Ltd.'s February 5, 2015, response to the recommendation in the *Timber Harvesting and Potential Impacts to the Duhamel Creek Alluvial Fan* complaint investigation report.

The response and the attachment titled *Duhamel Creek Hydrogeomorphic Risk,* which used the risk assessment procedure outlined in the FLNR Land Management Handbook 61 – *Managing Forested Watersheds for Hydrogeomorphic Risks on Fans* fulfills the Board's recommendation.

We now consider this investigation closed.

Sincerely,

Timothy S. Ryan, RPF
Chair
