Subject: Mosaic's response - FW: Publication of Board Report - East Thurlow

Good morning Dave,

This March 2020 report, recommended the following to TimberWest, for which TimberWest was to respond by today. TimberWest amend its FSP content for old forest and listed plant communities to incorporate the provincial field guide criteria for stand-level assessment of old forest and listed plant communities.

This email confirms that TimberWest immediately adopted the guidance provided by Land Management Handbook #72 upon its release on 19 May 2020 and that on 28 September 2020 TimberWest submitted Minor Amendment #24 for the Johnstone Strait FSP to fully address the recommendation. It was considered approved upon submission to the Province's electronic FSP Tracker.

I trust this satisfies the response requirements of IRC230. Confirmation of receipt of this email is appreciated.

Feel free to contact me with any further questions.

Best regards,
Domenico Iannidinardo

Dear Domenico Iannidinardo:

Re: Response to the Board's recommendation - Planning for Old Forest on TFL 47 - East Thurlow Island

We received your letter of September 30, 2020, responding to the Board recommendation that Mosaic Forest Management (Mosaic) amend its forest stewardship plan to incorporate the provincial field guide criteria.

We understand that Mosaic adopted the guidance provided by Land Management Handbook #72 (the provincial field guide) upon its release on May 19, 2020 and that on September 28, 2020 Mosaic amended its Johnstone Strait forest stewardship plan to fully address the recommendation.

Thank you for your response to the Board's recommendation. We now consider this file closed.

Yours sincerely,

Kevin Kriese
Chair
