Dear Mr. Ryan:

Re: Update regarding FPB Audit (the "Audit") of NRFL A72921 (the "Licence")

As you are aware, Yinka Dene Economic Development Limited Partnership ("YLP"), as represented by its general partner Yinka Dene Economic Development GP Inc., is now overseeing matters respecting the Licence for the corporate licence holder 639881 B.C. Ltd. ("639"). As you are also aware, 639 holds the Licence for the Wet'suwet'en First Nation ("WFN"). We are confident that YLP's new management approach to forest resources will result in better stewardship of the land and increased benefits for WFN's members.

Under YLP's supervision, the following measures have been implemented to respond to the issues raised in the Audit:

1. the remainder of the volume on the Licence has been sold to Canfor with the agreement that Canfor will manage all required activities and obligations;
2. 639, with the assistance of YLP, is in the process of transferring outstanding silviculture obligations on existing blocks to parties that agreed to assume such obligations in accordance with other agreements relating to timber from the Licence; and
3. the allegations against 639 with respect to excessive soil disturbance from certain harvesting operations on the Licence were withdrawn by the Ministry.

In addition, below is a table with the burning activities on blocks from the Licence. These blocks have all been grass seeded as well.

CP	Block	Burning Completed by
CP 7	All blocks	October 30, 2014
CP 8	All blocks except block 18	October 2013
CP 10	All Blocks	October 2013
CP 4	All Blocks	October 2013
CP 8	18	October 2014

YLP continues to monitor activities related to the Licence, including Canfor's management activities, to ensure that those operating under the authority of the Licence are complying with all applicable laws.

We trust you will find the above in order.

Sincerely,

Reg Ogen
President, Yinka Dene Economic Development GP Inc.
